A LIVELY DEBATE

OVER THE PROPOSED REPEAL OF THE PANAMA CANAL ACT.

CROWDS FILL HOUSE

Contest Now Transferred to Senate—A Tedious Struggle in Store—Will Delay Congress.

(By W. C. Van Cleve.)

The proposed repeal of the exemption clause of the Panama canal act stirred up the liveliest debate in congress of anything in recent years. Not since the Democrats gained control of the house has that body been so wrought up as it was during the discussion of this subject last week. Nothing in many years has called forth such earnest, able and vigorous debate.

Fror the hour the special rule was reported making the consideration of the repeal bill in order until it was passed Tuesday night, there was hardly a dull moment. Not only was there an unusually large number of members in their seats, but the galleries were constantly crowded with people who refused to leave even for their meals.

Tuesday morning men and women stood at the gallery doors at 7 o'clock in the morning, long before the doors were opened, in order that they might have seats when the house met at noon. By 10 o'clock the galleries were filled and long lines stood in the corridors vainly waiting for others to grow weary and leave the galleries. By 11 o'clock the old soldiers, who make up the force of doorkeepers to the galleries, found themselves unable to control the surging, insistent crowds and it was necessary to close the elevators and stairways to all visitors.

It was the closing day of a great debate in which superior numbers were on one side and their trusted house leaders were on the other. Though the president had asked for the repeal in "ungrudging measure," men of all political parties opposed their party associates and their party leaders. Speaker Clark, Majority Leader Underwood, his probable successor, Mr. Kitchin, and other Democratic leaders, Minority Leader Mann and Progressive Leader Murdock, all made able addresses in opposition.

The speech of Mr. Underwood was perhaps the greatest of his career and was made under heroic circumstances. He has been very close to the membership of the house, he has been a warm supporter of the president, and he was in the closing hours of a campaign for the United States senate in his state and knew his position would be used against him by his opponent. So far as he knew it might end his career. The position of Speaker Clark was equally trying and called for courage and a deep conviction of duty.

• • •

It was not regarded as a partisan proposition. The president determined that the best interests of the country demanded the repeal of that section of the canal act exempting American vessels engaged in the coastwise trade from the payment of tolls. Nobody questioned his sincerity and perfect honesty in the matter. He asked the congress to repeal the provision in an address memorable for its brevity.

Some of his ablest supporters in the house who had voted for free tolls, and still believe in them, were unable to see as did the president without the information upon which he based his decision. Among them were the gentlemen above mentioned. They reasoned that the act was passed by a Democratic congress, endorsed by the Baltimore convention; that they went before the people and were elected on that platform and they could see no justifiable reason for deserting both their convictions and their platform, though they found no fault with those who believed it their duty to do so

Mr. Underwood said: "The Democratic party, not I, wrote this provision as to free tolls into its platform. I believe this plank of the platform is right." Mr. Clark, expressing his regret at not being able to agree with the president, declared himself ready to follow where the president might lead while in the white house, so long as he was not asked to leave his party platform. On that he drew the line.

The greater number, however, took the position that, so far as the foreign policy of the government is concerned, the president and his secretary of state are supreme; that he was under no obligation to give congress information unless he saw fit and that the success of the administration would be jeopardized if congress did not accede to his request. They preferred to trust their political fortunes somewhat to the faith they had in his wisdom and patriotic sense of duty.

• • •

The contest has now been transferred to the senate, where a longer and more tedious struggle is in store. There, as in the house, men of all parties are divided on the issue. Senator Martin of New Jersey, a bosom friend, has broken with the president on the subject, while Senator Hitchcock, an erstwhile opponent, will support him. The president expects a majority of nine in the senate, but the discussion will consume two months or more and doubtless delay the final adjournment of congress. A few weeks ago an adjournment was expected by June 1st. Not so now.

• • •

The nomination of Oscar Underwood for the United States senate from Alabama by a sweeping majority is a source of universal satisfaction to the house. The house never had a leader who exercised a greater influence and commanded greater respect than Mr. Underwood, and his superb leadership will be missed. There is no man in the house who apparently possesses so many ideal traits of leadership. Representative Kitchin of North Carolina is slated to succeed him. Mr. Kitchin, though popular and of recognized ability, has assumed a modest role in the house thus far, but his friends are confident that he will rise to the occasion and acquit himself to the satisfaction of all when the time comes.

• • •

Senator James A. Reed has just returned from a few days of campaigning in the interest of the candidacy of Mayor Jost and the Democratic ticket in Kansas City. Senator Reed always goes to the front when his party at home is assailed by the enemy.

• • •

The fact that Missouri succeeded in getting two reserve bank cities under the new currency law, raised a considerable storm of protest from some of the defeated applicants, but the selection of both St. Louis and Kansas City are so well fortified by financial and business conditions and geographical considerations that any discussion of the matter is to their advantage.

EASTER SERVICES.

All the Churches Gave Musical and Religious Programs.

All of the churches of Maryville joined Sunday in offering special religious and musical programs for Easter. All of the services met with response from the church going public, and Maryville's feminine population, clad in gayest frocks, turned out. It was an ideal day.

The musical offerings in churches of the Protestant denomination, as well as in the Catholic churches, were unusually pretentious. They all had special programs in the morning, and most of them had extended vocal and instrumental programs in the evening.

At the evening service at the First M. E. church the choir gave a forty-five minute program from "The Holy City," by Gaul. At the First Presbyterian church the choir sang "The Risen King," by Schnecker. An excellent musical program was given at the First Christian church and also at the Buchanan Street Methodist church and the First Baptist church.

The Knights Templar, in uniform, attended the morning services at the First Baptist church. A number of the members of Maryville lodge, No. 165, and Nodaway lodge, No. 470, A. F. and A. M., also attended this service. Rev. L. M. Hale, the pastor, preached on "The Facts and Fruits of the Resurrection."

THE HESSIAN FLY

A. B. DOWDEN REPORTS THEY HAVE RUINED WHEAT.

ATTACK WHEAT ONLY

Question of Exterminating the Fly a Difficult One—Crops Should Be Rotated.

A. B. Dowden of Myrtle Tree reported to Prof. John E. Cameron of the agricultural department of the Normal school that the Hessian fly was at work in his wheat fields and had practically ruined one 10-acre tract already

The question of exterminating the fly is a difficult one, the only way now known being the rotation of crops in order to keep the insect on the move all the time until they die out because of not having any places to hatch out their eggs. The wheat plant is the only plant which they attack.

Two broods of the fly are hatched each year, one in the fall and one in the spring. The fall brood lay their eggs on the wheat and go into the pupa stage in the fall and feed on the plants when the warm spring weather comes. After they have emerged into the full-grown state they lay their eggs on the wheat plants which are already grown and so weaken them that they do not fill out well, and probably fall before harvesting time. The fly was first found in this country shortly after the Hessian soldiers came during the American Revolution, and hence were called the Hessian fly.

Prof. Cameron suggests that oats or corn be planted on the fields which the insects have ruined. The corn is preferable, since some of the larvae might live over on the wheat stubble if it were planted to oats.

Mr. Bently, who has charge of the farm crops department of the University of Missouri, was here Saturday and oversaw the planting of the experiment field here. Four varieties of barley and six varieties of oats were planted. One field was also planted to Canada peas, one-half being drilled in with oats and the other half were planted alone.

MANY ENTRIES IN

FOR TRACK MEET AND ORATORICAL CONTEST.

30 SCHOOLS TO COMPETE

In the Meet—Eighteen Boys and Thirteen Girls Have Entered the Declamatory Contest.

Entries are now practically complete for the inter-high school athletics and oratorical contests to be here April 24 and 25 at the Normal school. The indications point to the most successful contest and meet yet given by the Normal, and thirty schools are to compete in the track meet, being five more than were here last year.

Corresponding Secretary H. P. Swinehart states that nineteen schools have already entered and a number of others had said that their entries would be sent immediately, and they are expected by Tuesday.

Seven essays have been received by Mr. Swinehart and at present there are eighteen boys and thirteen girls enrolled in the declamatory contest.

A complete list of all the entries and of the judges will be published soon. It is thought that there will be between 400 and 500 in the field meet, and a large crowd is promised if good weather is had.

NINETEEN ENTER FOR MEET.

St. Joseph Central High Will Make a Strong Bid for Cup.

The St. Joseph Gazette has the following to say of the inter-high school track meet, which will be held at the Normal athletic field April 25:

Nineteen Central high school athletes, according to Coach Brous, will be entered this year in the northwest Missouri high school meet, to be held April 25 in Maryville. Of course, some are new men, while others have taken parts in meets previous.

Central expects to place a strong team in the competition, although Bernard Niedorp, last year's great point winner, will not be with the blue and white. Niedorp was the most consistent winner of points for the local squad last year and his absence will prove to weaken the team.

Central's strongest opponent, Bosworth high school, or rather, Simpson, Bosworth's lone entry, will be among those missing this year, and competition will not be so strong. Martin, Schroeder, Castle, Stankowski, Rohloff, Johnson and Capt. Rice will be the old men in the meet and much dependence is being placed on them to bring honor to Central.

The dash events will not be so strong this year, according to the dope, but each of the four men entered in the events is expected to give a good account of himself. In fact, the local school should capture the events, for, according to reports, opposition will not be so marked as in previous meets.

Following are the entries for the meet.

100-yard dash—Marion Martin, B. Castle, Eric Schroeder, Lorrance Toel.

220-yard dash—Marion Martin, Owen Sellars, Anton Stankowski.

Quarter-mile run—Owen Sellars, Anton Stankowski, Earl Hastings, Elton Haynie.

Half-mile run—Owen Sellars, Edgar Schroers, Millard Bahr, Earl Hastings, Elton Haynie.

Mile run—Earl Hastings, Dan Harroun, Elton Haynie, Courtney Bramel, Joe Rohloff.

SETTLEMENT OUT OF COURT.

Trustee Appointed for S. L. Craig of Springfield—Shortage Totals $10,000.

The St. Louis Republic of Friday had the following about S. L. Craig, a former Maryville resident:

To avoid litigation and the ensuing notoriety, S. L. Craig, a loan agent of Springfield, and several of his clients in transactions with whom he is said to be short more than $10,000, agreed to the appointment of a trustee to effect settlements out of court.

Deeds filed with the county recorder conveying property to the trustee for the benefit of creditors show that Craig's two daughters, Virginia and Ellen Craig, have sacrificed their savings of years as school teachers to aid their father. It is understood that the family gave up everything to settle the shortages, and that the two daughters have promised to make good in time every cent due Craig's clients.

The shortages grew out of Craig's alleged failure to handle loans for people in the proper way. In some instances persons for whom he acted as confidential adviser were led to believe that they held first mortgages as security for loans, when they were given second deeds of trust. An abstract firm found there was a shortage exceeding $10,000.

Among those who have demanded settlements from Craig is former Judge R. L. Goode of St. Louis, for whom Craig has handled large sums of money.

Craig was indicted by the recent grand jury on a charge of embezzlement in connection with his dealings.

Miss Lucy Palmer of the Barnard schools visited her parents, Mr. and Mrs. J. M. Palmer, of Burlington Junction, on Saturday.

Henry Reed and son, James Reed, of near Ravenwood were Monday visitors in Maryville.

Mr. and Mrs. F. A. McKee and son of Barnard were Maryville visitors Saturday.

AFTER GRIPPE

Made Strong by Vinol.

John C. Furman of Clarion, Pa., says: "After a very severe attack of the grippe my system was in a weakened, nervous and run-down condition I had no appetite at all. I was obliged to continue with my work, and nothing seemed to help me until a friend induced me to take Vinol. I began to note good results from the first bottle. I continued its use and am now sound and well as ever.

In health one cannot realize how depressed a person may become after trying one remedy after another without benefit for such a condition as Mr. Furman was in, or what a relief it is to find help and be restored to health and strength.

It is the combined action of the medicinal curative element of cods' livers without the greasy oil, aided by the blood making and strength creating properties of tonic iron, that makes Vinol so efficient in building up the weakened, run-down system.

We guarantee Vinol to give you perfect satisfaction. Orear-Henry Drug Co., Maryville, Mo.—Advertisement.

EASTER MUSICAL AT MAITLAND.

Event Brought Many From Miles Around to the Church of Which Rev. Alva Brown is Pastor.

One of the most successful musical events was the Easter musical that took place Sunday night at the Methodist Episcopal church in Maitland, of which Rev. Alva C. Brown is pastor.

A chorus of twenty-four voices from that church sang with decided credit to themselves the cantata "Gethsamane to Calvary," by Witty, before an audience that filled every available space in the building. Many who came were turned away. Friends of the singers and pastor were there from St. Joseph, Oregon, Mound City, Graham, Skidmore and from the country for miles around.

It was the greatest musical event Maitland has given, and was surely appreciated, and it was much regretted that all who came were not permitted to hear it.

The morning sermon at this church was given by Dr. W. B. Christy of Maryville, the presiding elder.

Three Drunks Fined.

Then a dialogue that provoked much merriment was entitled "Thank Heaven, the Table's Set." The actors in this were Dick Livasy, Mabel Null, Will Bosch, Edith Jones, Will Saunders, Lanta Moberly. Over sixty guests were present to enjoy the evening's program. A negro dialect piece, "Encouragement," was extra well rendered by little Miss Mary Moon.

These were enlarged upon by Mrs. Roy Collins in a study upon "The Work in Rome and South America;" "In Mexico," by Mrs. Emmett Scott; "In Bulgaria," by Miss Nelle Wray. An inspiring story of the life of Allan Gardner, a missionary, was read by Mrs. Charles C. Moore. A social hour and luncheon followed, the hostess being assisted by Mrs. T. L. Wadley and Mrs. A. A. Brewer. Rev. Cox gave several numbers on the piano player, and his little son, Borden, sang to the delight of all one of Mrs. Jessie Gaynor's slumber songs. YOUR CHILD'S SIGHT

Should be a most important consideration. Many children are handicapped in school or subjected to petty nervous or physical ills by the effects of imperfect vision.

An examination of the eyes of 100,000 school children in New York City showed that nearly 30 per cent needed glasses. In Boston it was more than 20 per cent, and most of them were down on the books as "stupid," "stubborn" or "unruly."

Wearing glasses in childhood often averts serious trouble later on. Have our optician examine your child's eyes. If glasses are not needed you may be sure we will tell you so frankly.

HAVE PRETTY HAIR

Thick, Soft, Fluffy, and No Dandruff—Use Parisian Sage.

If your hair is losing its natural color, coming out and splitting, or lacks that enviable softness, gloss and beauty, do not despair—pretty hair is largely a matter of care. If it is too thin to make it grow. If it is harsh and brittle soften it up—lubricate it. If you have dandruff it is because the scalp is too dry and flakes off. Freshen up the scalp with Parisian Sage—all dandruff disappears, falling hair and itching head cease, your hair is doubly beautiful.

Parisian Sage, sold by T. J. Parle and at all drug counters, is just what you need—a large bottle costs but 50 cents. It surely makes the hair lustrous and seem twice as abundant. You cannot be disappointed in Parisian Sage.

TRANSPORT IS SENT TO TAMPICO

American Boat Hancock Ordered to Proceed Immediately.

WILL TAKE CARE OF REFUGEES

Two Important Conferences to Be Held This Week—President and John Lind to Discuss Situation—Villa and Carranza to Meet.

New Orleans, April 13.—The United States transport Hancock received imperative orders from Washington to proceed immediately to Tampico.

It is understood the vessel will take aboard refugees from the battle-swept city of Tampico, where heavy fighting between Mexican constitutionalists and federals has been reported.

The Hancock will sail this afternoon. The transport arrived here two months ago, bringing 950 marines from the first advance base regiment. The marines will remain at the naval station here, it is said. When the transport steams south it will probably be accompanied by the United States hospital ship Solace, under orders to hasten for Tampico.

Two Important Meetings.

Washington, April 13.—Washington officials and diplomats were speculating upon the outcome of the two conferences to be held during this week, one in this city between the president and his personal representative in Mexico, John Lind, and the other at Torreon between General Venustiano Carranza, first chief of the constitutionalists, and General Villa, victorious leader of the Mexican rebels in the field.

President Wilson returned to the capital today from his week-end trip to West Virginia. Mr. Lind is coming up the coast from Vera Cruz aboard the yacht Mayflower. He is expected to reach here tomorrow.

About the time Mr. Lind is making his report to the president, the Mexican rebel leaders will be meeting for the first time since the days of Madero and upon this conference much is believed to depend.

Officials here think that a face to face talk between Generals Carranza and Villa will result in a clearer understanding concerning the rights of foreigners in Mexico and especially their privilege of pressing claims through American consular officers.

The navy department was without a final report from Rear Admiral Mayo on the outcome of his demand that the Mexican federal commander at Tampico salute the Stars and Stripes as a part of his apology for the affront to America in the arrest of a detachment of United States marines from the Dolphin. Officials declared, however, that no anxiety was felt as assurances had been given that proper reparation would be made.

USE BURNED FORESTS

Experts Discover Fire Killed Pine of Value for Telephone Poles.

Denver, April 13.—Forestry officials have been alarmed by the rapid decrease in the supply of live timber for telephone and telegraph poles. It has been realized that the country faced an actual famine along these lines, unless new material were made readily available.

With the idea of ascertaining the availability of fire killed pine, millions of feet of which are now standing on all the national forests in the west, forest service experts have been cooperating with state university scientists at Boulder.

As a result of these tests it is announced there are millions of telephone and telegraph poles now available in the fire swept areas of the west. Fire killed lodge pole pine has stood every test.

CONFERENCE O. K.'S LANE

Interior Secretary Indorsed at the Denver Irrigation Meet.

Denver, April 13.—The irrigation conference called by Secretary of the Interior Lane for the consideration of problems relating to the reclamation of arid lands closed.

The final act of the delegates was to adopt a resolution of confidence in Secretary Lane.

Investment of postal savings bank funds in the bonds of irrigation districts was urged upon congress.

Joy Riders Steal and Ruin Two Cars.

Webster City, Ia., April 13.—Two automobiles stolen from the Hansen & Tyler garage in this city by joy riders were found in an alley. The engines were burned out and the cars damaged to the extent of $1,000. There is no clue to the vandals. The cars were new ones.

Church Has Commission Plan.

Walla Walla, Wash., April 13.—The commission plan of government as applied to church matters is proving a success at the Congregational church. Five commissioners have charge of affairs. It is said to be the only church in the country following such a plan.

Revolutionist Is Outlaw.

Washington, April 13.—Desideric Arias, leader of the latest revolution in the northern provinces of the Dominican republic, has been declared an outlaw and removed from his government office.

SCENES AT TAMPICO.

Rebels In Mexico Now Attack Seaport In March To Huerta's Capital.

FEDERAL SEASON OPENS AT BALTIMORE

Mayor Preston Puts Ball in Play for First Game.

Baltimore, April 13.—The Federal league with its recruits from the ranks of the National and American leagues opened here today a season which its officials hope will result in a vindication of its claim to rank as a third major league of baseball. Baltimore and Buffalo, which for many years have been represented by teams in the International league, will play the first game in the contest for the championship of the new "Big" league.

By act of the state legislature today is a half holiday. Mayor Preston of Baltimore put the ball in play.

MAGNATES ARE HOPEFUL

National and American Presidents Predict Prosperity.

New York, April 13.—The executives and magnates of the American and National leagues predict another six months of exciting pennant races and general prosperity.

Organized baseball, ignoring the invasion of its field by the Federal league, reiterates its faith in the loyalty of its followers and the standard of the game as played by its clubs.

Both President Ban Johnson of the American league and President John K. Tener of the National league, in outlining the prospects of their respective organizations for the 1914 season, express the belief that organized baseball will receive the confidence and support accorded it by the devotees of the game in past years. In fact, optimism, harmony and enthusiasm appear to be the words of the hour of the major leagues.

Widow Gives Funeral Eulogy.

Montgomery, Mo., April 13.—When the preacher who was to conduct the funeral service of Nicholas Deatone, one of the oldest residents of this county, failed to appear, Mrs. Deatone, the widow, delivered the funeral oration. To the friends who had assembled at the home, the widow eulogized her husband, declaring he had always been a good husband and father and a good citizen. The preacher, who had arrived while Mrs. Deatone was speaking, conducted the services at the grave.

Dies of Excitement.

Monticello, N. Y., April 13.—Ferdinand A. Forest, an aged inventor of a motor, died suddenly while testing a new auto boat in which he was to attempt to break the mile speed record. The boat ran against a jetty. The craft was only slightly damaged, but the excitement proved fatal to the inventor, who suffered from heart trouble. Forest was the first to construct a four cylinder engine and apply the magneto ignition.

Bride Shoots Her Husband.

Lincoln, April 13.—Mrs. Earl Allender, a bride of four months, shot and killed her husband after a quarrel. He fired twice at her before she wrested the gun from his hands and sent a bullet through his lungs. Allender retreated to a neighboring doorstep after the battle and died before aid could be secured. The victim had been a convict in Iowa and had a police record in that state.

Elephant Frame 200,000 Years Old.

Los Angeles, April 13.—LaBrea fossil fields near here yielded up the practically complete skeleton of a prehistoric elephant which, it is believed, roamed the earth some 200,000 years ago. "The animal in life measured more than sixteen feet in length," said Frank S. Daggett, director of the Southwest museum. "It stood fourteen feet high and its tusks are sixteen feet long."

A LIVELY DEBATE

OVER THE PROPOSED REPEAL OF THE PANAMA CANAL ACT.

CROWDS FILL HOUSE

Contest Now Transferred to Senate—A Tedious Struggle in Store—Will Delay Congress.

(By W. C. Van Cleve.)

The proposed repeal of the exemption clause of the Panama canal act stirred up the liveliest debate in congress of anything in recent years. Not since the Democrats gained control of the house has that body been so wrought up as it was during the discussion of this subject last week. Nothing in many years has called forth such earnest, able and vigorous debate.

From the hour the special rule was reported making the consideration of the repeal bill in order until it was passed Tuesday night, there was hardly a dull moment. Not only was there an unusually large number of members in their seats, but the galleries were constantly crowded with people who refused to leave even for their meals.

Tuesday morning men and women stood at the gallery doors at 7 o'clock in the morning, long before the doors were opened, in order that they might have seats when the house met at noon. By 10 o'clock the galleries were filled and long lines stood in the corridors vainly waiting for others to grow weary and leave the galleries. By 11 o'clock the old soldiers, who make up the force of doorkeepers to the galleries, found themselves unable to control the surging, insistent crowds and it was necessary to close the elevators and stairways to all visitors.

It was the closing day of a great debate in which superior numbers were on one side and their trusted house leaders were on the other. Though the president had asked for the repeal in "ungrudging measure," men of all political parties opposed their party associates and their party leaders. Speaker Clark, Majority Leader Underwood, his probable successor, Mr. Kitchin, and other Democratic leaders, Minority Leader Mann and Progressive Leader Murdock, all made able addresses in opposition.

The speech of Mr. Underwood was perhaps the greatest of his career and was made under heroic circumstances. He has been very close to the membership of the house, he has been a warm supporter of the president, and he was in the closing hours of a campaign for the United States senate in his state and knew his position would be used against him by his opponent. So far as he knew it might end his career. The position of Speaker Clark was equally trying and called for courage and a deep conviction of duty.

* * *

It was not regarded as a partisan proposition. The president determined that the best interests of the country demanded the repeal of that section of the canal act exempting American vessels engaged in the coastwise trade from the payment of tolls. Nobody questioned his sincerity and perfect honesty in the matter. He asked the congress to repeal the provision in an address memorable for its brevity.

Some of his ablest supporters in the house who had voted for free tolls, and still believe in them, were unable to see as did the president without the information upon which he based his decision. Among them were the gentlemen above mentioned. They reasoned that the act was passed by a Democratic congress, endorsed by the Baltimore convention; that they went before the people and were elected on that platform and they could see no justifiable reason for deserting both their convictions and their platform, though they found no fault with those who believed it their duty to do so.

Mr. Underwood said: "The Democratic party, not I, wrote this provision as to free tolls into its platform. I believe this plank of the platform is right." Mr. Clark, expressing his regret at not being able to agree with the president, declared himself ready to follow where the president might lead while in the white house, so long as he was not asked to leave his party platform. On that he drew the line.

The greater number, however, took the position that, so far as the foreign policy of the government is concerned, the president and his secretary of state are supreme; that he was under no obligation to give congress information unless he saw fit and that the success of the administration would be jeopardized if congress did not accede to his request. They preferred to trust their political fortunes somewhat to the faith they had in his wisdom and patriotic sense of duty.

* * *

The contest has now been transferred to the senate, where a longer and more tedious struggle is in store. There, as in the house, men of all parties are divided on the issue. Senator Martin of New Jersey, a bosom friend, has broken with the president on the subject, while Senator Hitchcock, an erstwhile opponent, will support him. The president expects a majority of nine in the senate, but the discussion will consume two months or more and doubtless delay the final adjournment of congress. A few weeks ago an adjournment was expected by June 1st. Not so now.

* * *

The nomination of Oscar Underwood for the United States senate from Alabama by a sweeping majority is a source of universal satisfaction to the house. The house never had a leader who exercised a greater influence and commanded greater respect than Mr. Underwood, and his superb leadership will be missed. There is no man in the house who apparently possesses so many ideal traits of leadership. Representative Kitchin of North Carolina is slated to succeed him. Mr. Kitchin, though popular and of recognized ability, has assumed a modest role in the house thus far, but his friends are confident that he will rise to the occasion and acquit himself to the satisfaction of all when the time comes.

* * *

Senator James A. Reed has just returned from a few days of campaigning in the interest of the candidacy of Mayor Jost and the Democratic ticket in Kansas City. Senator Reed always goes to the front when his party at home is assailed by the enemy.

* * *

The fact that Missouri succeeded in getting two reserve bank cities under the new currency law, raised a considerable storm of protest from some of the defeated applicants, but the selection of both St. Louis and Kansas City are so well fortified by financial and business conditions and geographical considerations that any discussion of the matter is to their advantage.

EASTER SERVICES.

All the Churches Gave Musical and Religious Programs.

All of the churches of Maryville joined Sunday in offering special religious and musical programs for Easter. All of the services met with response from the church going public, and Maryville's feminine population, clad in gayest frocks, turned out. It was an ideal day.

The musical offerings in churches of the Protestant denomination, as well as in the Catholic churches, were unusually pretentious. They all had special programs in the morning, and most of them had extended vocal and instrumental programs in the evening.

At the evening service at the First M. E. church the choir gave a forty-five minute program from "The Holy City," by Gaul. At the First Presbyterian church the choir sang "The Risen King," by Schnecker. An excellent musical program was given at the First Christian church and also at the Buchanan Street Methodist church and the First Baptist church.

The Knights Templar, in uniform, attended the morning services at the First Baptist church. A number of the members of Maryville lodge, No. 165, and Nodaway lodge, No. 470, A. F. and A. M., also attended this service. Rev. L. M. Hale, the pastor, preached on "The Facts and Fruits of the Resurrection."

THE HESSIAN FLY

A. B. DOWDEN REPORTS THEY HAVE RUINED WHEAT.

ATTACK WHEAT ONLY

Question of Exterminating the Fly a Difficult One—Crops Should Be Rotated.

A. B. Dowden of Myrtle Tree reported to Prof. John E. Cameron of the agricultural department of the Normal school that the Hessian fly was at work in his wheat fields and had practically ruined one 10-acre tract already.

The question of exterminating the fly is a difficult one, the only way now known being the rotation of crops in order to keep the insect on the move all the time until they die out because of not having any places to hatch out their eggs. The wheat plant is the only plant which they attack.

Two broods of the fly are hatched each year, one in the fall and one in the spring. The fall brood lay their eggs on the wheat and go into the pupa stage in the fall and feed on the plants when the warm spring weather comes. After they have emerged into the full-grown state they lay their eggs on the wheat plants which are already grown and so weaken them that they do not fill out well, and probably fall before harvesting time. The fly was first found in this country shortly after the Hessian soldiers came during the American Revolution, and hence were called the Hessian fly.

Prof. Cameron suggests that oats or corn be planted on the fields which the insects have ruined. The corn is preferable, since some of the larvae might live over on the wheat stubble if it were planted to oats.

Mr. Bently, who has charge of the farm crops department of the University of Missouri, was here Saturday and oversaw the planting of the experiment field here. Four varieties of barley and six varieties of oats were planted. One field was also planted to Canada peas, one-half being drilled in with oats and the other half were planted alone.

MANY ENTRIES IN

FOR TRACK MEET AND ORATORICAL CONTEST.

30 SCHOOLS TO COMPETE

In the Meet—Eighteen Boys and Thirteen Girls Have Entered the Declamatory Contest.

Entries are now practically complete for the inter-high school athletics and oratorical contests to be here April 24 and 25 at the Normal school. The indications point to the most successful contest and meet yet given by the Normal, and thirty schools are to compete in the track meet, being five more than were here last year.

Corresponding Secretary H. P. Swinehart states that nineteen schools have already entered and a number of others had said that their entries would be sent immediately, and they are expected by Tuesday.

Seven essays have been received by Mr. Swinehart and at present there are eighteen boys and thirteen girls enrolled in the declamatory contest.

A complete list of all the entries and of the judges will be published soon. It is thought that there will be between 400 and 500 in the field meet, and a large crowd is promised if good weather is had.

NINETEEN ENTER FOR MEET.

St. Joseph Central High Will Make a Strong Bid for Cup.

The St. Joseph Gazette has the following to say of the inter-high school track meet, which will be held at the Normal athletic field April 25:

Nineteen Central high school athletes, according to Coach Brous, will be entered this year in the northwest Missouri high school meet, to be held April 25 in Maryville. Of course, some are new men, while others have taken parts in meets previous.

Central expects to place a strong team in the competition, although Bernard Niedorp, last year's great point winner, will not be with the blue and white. Niedorp was the most consistent winner of points for the local squad last year and his absence will prove to weaken the team.

Central's strongest opponent, Bosworth high school, or rather, Simpson, Bosworth's lone entry, will be among those missing this year, and competition will not be so strong. Martin, Schroeder, Castle, Stankowski, Rohloff, Johnson and Capt. Rice will be the old men in the meet and much dependence is being placed on them to bring honor to Central.

The dash events will not be so strong this year, according to the dope, but each of the four men entered in the events is expected to give a good account of himself. In fact, the local school should capture the events, for, according to reports, opposition will not be so marked as in previous meets.

Following are the entries for the meet.

100-yard dash—Marion Martin, B. Castle, Eric Schroeder, Lorrance Toel.

220-yard dash—Marion Martin, Owen Sellars, Anton Stankowski.

Quarter-mile run—Owen Sellars, Anton Stankowski, Earl Hastings, Elton Haynie.

Half-mile run—Owen Sellars, Edgar Schroers, Millard Bahr, Earl Hastings, Elton Haynie.

Mile run—Earl Hastings, Dan Harroun, Elton Haynie, Courtney Bramel, Joe Rohloff.

SETTLEMENT OUT OF COURT.

Trustee Appointed for S. L. Craig of Springfield—Shortage Totals $10,000.

The St. Louis Republic of Friday had the following about S. L. Craig, a former Maryville resident:

To avoid litigation and the ensuing notoriety, S. L. Craig, a loan agent of Springfield, and several of his clients in transactions with whom he is said to be short more than $10,000, agreed to the appointment of a trustee to effect settlements out of court.

Deeds filed with the county recorder conveying property to the trustee for the benefit of creditors show that Craig's two daughters, Virginia and Ellen Craig, have sacrificed their savings of years as school teachers to aid their father. It is understood that the family gave up everything to settle the shortages, and that the two daughters have promised to make good in time every cent due Craig's clients.

The shortages grew out of Craig's alleged failure to handle loans for people in the proper way. In some instances persons for whom he acted as confidential adviser were led to believe that they held first mortgages as security for loans, when they were given second deeds of trust. An abstract firm found there was a shortage exceeding $10,000.

Among those who have demanded settlements from Craig is former Judge R. L. Goode of St. Louis, for whom Craig has handled large sums of money.

Craig was indicted by the recent grand jury on a charge of embezzlement in connection with his dealings.

Miss Lucy Palmer of the Barnard schools visited her parents, Mr. and Mrs. J. M. Palmer, of Burlington Junction, on Saturday.

Henry Reed and son, James Reed, of near Ravenwood were Monday visitors in Maryville.

Mr. and Mrs. F. A. McKee and son of Barnard were Maryville visitors Saturday.

AFTER GRIPPE

Made Strong by Vinol.

John C. Furman of Clarion, Pa., says: "After a very severe attack of the grippe my system was in a weakened, nervous and run-down condition. I had no appetite at all. I was obliged to continue with my work, and nothing seemed to help me until a friend induced me to take Vinol. I began to note good results from the first bottle. I continued its use and am now sound and well as ever.

In health one cannot realize how depressed a person may become after trying one remedy after another without benefit for such a condition as Mr. Furman was in, or what a relief it is to find help and be restored to health and strength.

It is the combined action of the medicinal curative element of cods' livers without the greasy oil, aided by the blood making and strength creating properties of tonic iron, that makes Vinol so efficient in building up the weakened, run-down system.

We guarantee Vinol to give you perfect satisfaction. Orear-Henry Drug Co., Maryville, Mo.—Advertisement.

EASTER MUSICAL AT MAITLAND.

Event Brought Many From Miles Around to the Church of Which Rev. Alva Brown is Pastor.

One of the most successful musical events was the Easter musical that took place Sunday night at the Methodist Episcopal church in Maitland, of which Rev. Alva C. Brown is pastor.

A chorus of twenty-four voices from that church sang with decided credit to themselves the cantata "Gethsamane to Calvary," by Witty, before an audience that filled every available space in the building. Many who came were turned away. Friends of the singers and pastor were there from St. Joseph, Oregon, Mound City, Graham, Skidmore and from the country for miles around.

It was the greatest musical event Maitland has given, and was surely appreciated, and it was much regretted that all who came were not permitted to hear it.

The morning sermon at this church was given by Dr. W. B. Christy of Maryville, the presiding elder.

Then a dialogue that provoked much merriment was entitled "Thank Heaven, the Table's Set." The actors in this were Dick Livasy, Mabel Null, Will Bosch, Edith Jones, Will Saunders, Lanta Moberly. Over sixty guests were present to enjoy the evening's program. A negro dialect piece, "Encouragement," was extra well rendered by little Miss Mary Moon.

These were enlarged upon by Mrs. Roy Collins in a study upon "The Work in Rome and South America;" "In Mexico," by Mrs. Emmett Scott; "In Bulgaria," by Miss Nelle Wray. An inspiring story of the life of Allan Gardner, a missionary, was read by Mrs. Charles C. Moore. A social hour and luncheon followed, the hostess being assisted by Mrs. T. L. Wadley and Mrs. A. A. Brewer. Rev. Cox gave several numbers on the piano player, and his little son, Borden, sang to the delight of all one of Mrs. Jessie Gaynor's slumber songs. YOUR CHILD'S SIGHT

Should be a most important consideration. Many children are handicapped in school or subjected to petty nervous or physical ills by the effects of imperfect vision.

An examination of the eyes of 100,000 school children in New York City showed that nearly 30 per cent needed glasses. In Boston it was more than 20 per cent, and most of them were down on the books as "stupid," "stubborn" or "unruly."

Wearing glasses in childhood often averts serious trouble later on. Have our optician examine your child's eyes. If glasses are not needed you may be sure we will tell you so frankly.

TRANSPORT IS SENT TO TAMPICO

American Boat Hancock Ordered to Proceed Immediately.

WILL TAKE CARE OF REFUGEES

Two Important Conferences to Be Held This Week—President and John Lind to Discuss Situation—Villa and Carranza to Meet.

New Orleans, April 13.—The United States transport Hancock received imperative orders from Washington to proceed immediately to Tampico.

It is understood the vessel will take aboard refugees from the battle-swept city of Tampico, where heavy fighting between Mexican constitutionalists and federals has been reported.

The Hancock will sail this afternoon. The transport arrived here two months ago, bringing 950 marines from the first advance base regiment. The marines will remain at the naval station here, it is said. When the transport steams south it will probably be accompanied by the United States hospital ship Solace, under orders to hasten for Tampico.

Two Important Meetings.

Washington, April 13.—Washington officials and diplomats were speculating upon the outcome of the two conferences to be held during this week, one in this city between the president and his personal representative in Mexico, John Lind, and the other at Torreon between General Venustiano Carranza, first chief of the constitutionalists, and General Villa, victorious leader of the Mexican rebels in the field.

President Wilson returned to the capital today from his week-end trip to West Virginia. Mr. Lind is coming up the coast from Vera Cruz aboard the yacht Mayflower. He is expected to reach here tomorrow.

About the time Mr. Lind is making his report to the president, the Mexican rebel leaders will be meeting for the first time since the days of Madero and upon this conference much is believed to depend.

Officials here think that a face to face talk between Generals Carranza and Villa will result in a clearer understanding concerning the rights of foreigners in Mexico and especially their privilege of pressing claims through American consular officers.

The navy department was without a final report from Rear Admiral Mayo on the outcome of his demand that the Mexican federal commander at Tampico salute the Stars and Stripes as a part of his apology for the affront to America in the arrest of a detachment of United States marines from the Dolphin. Officials declared, however, that no anxiety was felt as assurances had been given that proper reparation would be made.

USE BURNED FORESTS

Experts Discover Fire Killed Pine of Value for Telephone Poles.

Denver, April 13.—Forestry officials have been alarmed by the rapid decrease in the supply of live timber for telephone and telegraph poles. It has been realized that the country faced an actual famine along these lines, unless new material were made readily available.

With the idea of ascertaining the availability of fire killed pine, millions of feet of which are now standing on all the national forests in the west, forest service experts have been cooperating with state university scientists at Boulder.

As a result of these tests it is announced there are millions of telephone and telegraph poles now available in the fire swept areas of the west. Fire killed lodge pole pine has stood every test.

CONFERENCE O. K.'S LANE

Interior Secretary Indorsed at the Denver Irrigation Meet.

Denver, April 13.—The irrigation conference called by Secretary of the Interior Lane for the consideration of problems relating to the reclamation of arid lands closed.

The final act of the delegates was to adopt a resolution of confidence in Secretary Lane.

Investment of postal savings bank funds in the bonds of irrigation districts was urged upon congress.

Joy Riders Steal and Ruin Two Cars.

Webster City, Ia., April 13.—Two automobiles stolen from the Hansen & Tyler garage in this city by joy riders were found in an alley. The engines were burned out and the cars damaged to the extent of $1,000. There is no clue to the vandals. The cars were new ones.

Church Has Commission Plan.

Walla Walla, Wash., April 13.—The commission plan of government as applied to church matters is proving a success at the Congregational church. Five commissioners have charge of affairs. It is said to be the only church in the country following such a plan.

Revolutionist Is Outlaw.

Washington, April 13.—Desiderio Arias, leader of the latest revolution in the northern provinces of the Dominican republic, has been declared an outlaw and removed from his government office.

SCENES AT TAMPICO.

Rebels In Mexico Now Attack Seaport In March To Huerta's Capital.

FEDERAL SEASON OPENS AT BALTIMORE

Mayor Preston Puts Ball in Play for First Game.

Baltimore, April 13.—The Federal league with its recruits from the ranks of the National and American leagues opened here today a season which its officials hope will result in a vindication of its claim to rank as a third major league of baseball. Baltimore and Buffalo, which for many years have been represented by teams in the International league, will play the first game in the contest for the championship of the new "Big" league.

By act of the state legislature today is a half holiday. Mayor Preston of Baltimore put the ball in play.

MAGNATES ARE HOPEFUL

National and American Presidents Predict Prosperity.

New York, April 13.—The executives and magnates of the American and National leagues predict another six months of exciting pennant races and general prosperity.

Organized baseball, ignoring the invasion of its field by the Federal league, reiterates its faith in the loyalty of its followers and the standard of the game as played by its clubs.

Both President Ban Johnson of the American league and President John K. Tener of the National league, in outlining the prospects of their respective organizations for the 1914 season, express the belief that organized baseball will receive the confidence and support accorded it by the devotees of the game in past years. In fact, optimism, harmony and enthusiasm appear to be the words of the hour of the major leagues.

Widow Gives Funeral Eulogy.

Montgomery, Mo., April 13.—When the preacher who was to conduct the funeral service of Nicholas Deatone, one of the oldest residents of this county, failed to appear, Mrs. Deatone, the widow, delivered the funeral oration. To the friends who had assembled at the home, the widow eulogized her husband, declaring he had always been a good husband and father and a good citizen. The preacher, who had arrived while Mrs. Deatone was speaking, conducted the services at the grave.

Dies of Excitement.

Monticello, N. Y., April 13.—Ferdinand A. Forest, an aged inventor of a motor, died suddenly while testing a new auto boat in which he was to attempt to break the mile speed record. The boat ran against a jetty. The craft was only slightly damaged, but the excitement proved fatal to the inventor, who suffered from heart trouble. Forest was the first to construct a four cylinder engine and apply the magneto ignition.

Bride Shoots Her Husband.

Lincoln, April 13.—Mrs. Earl Allender, a bride of four months, shot and killed her husband after a quarrel. He fired twice at her before she wrested the gun from his hands and sent a bullet through his lungs. Allender retreated to a neighboring doorstep after the battle and died before aid could be secured. The victim had been a convict in Iowa and had a police record in that state.

Elephant Frame 200,000 Years Old.

Los Angeles, April 13.—LaBrea fossil fields near here yielded up the practically complete skeleton of a prehistoric elephant which, it is believed, roamed the earth some 200,000 years ago. "The animal in life measured more than sixteen feet in length," said Frank S. Daggett, director of the Southwest museum. "It stood fourteen feet high and its tusks are sixteen feet long."
